1:40- 2:00 Clean up, pack up

2:00 Dismissal

Lunch and Snack

Learning Centers/Center Time

Curriculum

The Bedford Prekindergarten Program uses the NYC DOE Interdisciplinary Units of Study as our curriculum. These are thematic units that introduce children to information, concepts and ideas about themselves, their families, their communities and the world around them. Each unit of study lasts 4-5 weeks.

Students engage in small and large group activities throughout the day. Center time in the morning and afternoon, allows students to have the opportunity to participate in teacher-directed activities and independent play activities.
